I'M HARD WORKING

MY WORKING EXPERIENCE

In my life I have worked as a waiter and cooker helper in some restaurants but this summer I experienced new activities such as : the Parker, the fruit seller and the worker in a tomato factory.

WHEN I DON'T WORK

If I don't work i like spending my time doing some extra activities like playing five-a-side football or reading books especially biographies of old fooballers or for example the most famous and successful characters of our time like Steve Jobs.

MY FAMILY

Everyday, my family is composed by 6 people me ,my mum ,my father , my sister, my brother-in law and the most important one: my grandma. My mum is a cooker helper in a restaurant , my father is a farmer, my sister is a hairdresser and my brother-in law is a mechanic.

- On party events my family is very large as you can see in this picture.

I would like to write about my summer holiday just to let you get familiar with this fantastic city

In April me and my friends have decided to go on a summer holiday all together in Gallipoli.

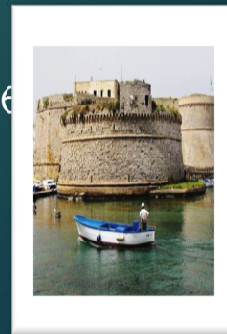

We stayed in Palazzo Vallebona for a week. In the past the family Vallebona was an important Gallipoli's family and now the name of the room is the same name of the old vessel of Vallebona's family.

Gallipoli is a fantastic city thanks to its sea , its food and the many beautiful places around it

The sea is very clean and perfect to have a boat trip, swim and take pictures
Walking and having fun in this city is safe and fun , the many bars make fantastic ice-cream and crepes.

There are a lot of beaches where to go : "Baia Verde", "le Maldive del Salento" and "spiaggia prosciutto" where you can find a lot of shells.

The last night was very funny, but the saddest too. We had to come back home without our Gallipoli new fantastic friends.

THANKS A LOT
I CAN'T WAIT TO MEET ALL OF YOU

Flavio Lefano
